

What inspires you?

◆ Design Inspiration ◆

Inspiration can be found everywhere you look. It can be found in a forgotten building, a bustling city, a diligent farm, or a glorious mountainside. Don't stop looking, you may miss something amazing.

Hello, I'm Minda.

I am a hardworking graphic designer that puts my all into everything I do. I was raised on a small farm, which has taught me how to work hard for something that you love. I have a great passion for inspiring designs and effective marketing strategies that work together. I am also an aspiring motion designer. I believe that motion takes story telling to the next level, and helps companies reach their consumers in a more personal way. My goal is to be the best hybrid designer that I can be, and in turn use my talents in an impactful way.

◆ Name History ◆

You may already be wondering, "Where does that name come from?" I get asked every day and I love telling people about it. My first name, Arminda, comes from my great, great grandmother. She worked very hard to overcome many hardships for the sake of her family. My middle name, Mardell, comes from my great grandmother. She was a teacher who helped and inspired everyone she met. Both women inspire me and I greatly admire them.
